MANAGING DISCRIMINATION RISKS IN ARTIFICIAL INTELLIGENCE UNDER EU LAW: A LEGAL ASSESSMENT OF THE EFFECTIVENESS OF THE AI ACT

TABLE OF CONTENTS

ACKNOWLEDGMENTS	V
TABLE OF AUTHORITIES	VII
ABBREVIATIONS	XV

Chapter 1

INTRODUCTION

1.1. Background and Research Question.....	17
1.2. Thesis Objectives.....	21
1.3. Research Methodology.....	22
1.4. Scope and Limitations	22
1.5. Thesis Structure	23

Chapter 2

THE PRINCIPLE OF NON-DISCRIMINATION AND ITS LEGAL GROUNDS

2.1. The Legal Status of the Principle of Non-Discrimination in Public International Law and Its Normative Foundations	25
2.2. The Principle of Non-Discrimination in EU Law: Legal Status and Underlying Norms	28
2.2.1. Discrimination Grounds.....	32
2.2.2. Discrimination Types	34

Chapter 3
DISCRIMINATION ARISING FROM
AI SYSTEMS UNDER EU NON-
DISCRIMINATION LAW

3.1. Definition, Development, and Functioning of AI and Its Fields of Use	39
3.2. AI and the Risk of Discrimination	42
3.2.1. Algorithmic Bias and Its Underlying Mechanisms	43
3.2.2. Examples of Discriminatory Outcomes Caused by AI Systems	49
3.3. The Scope, Application and Limitations of EU Non-Discrimination Directives in the Context of AI	54
3.4. CJEU Discrimination Case Law in Relation to AI Systems	60
3.4.1. Determination of Direct Discrimination by the CJEU	61
3.4.2. Determination of Indirect Discrimination by the CJEU	66
3.4.3. Application of the Burden of Proof	71

Chapter 4
THE AI ACT AND ITS GOVERNANCE OF
DISCRIMINATION RISKS IN AI SYSTEMS

4.1. The Emergence Process of the AI Act	75
4.2. An Overview of the AI Act	80
4.2.1. The Legal Status of the AI Act	80
4.2.2. The Purpose and Subject Matter of the AI Act	81
4.2.3. The Scope of the AI Act	82
4.3. The Risk-Based Approach of the AI Act: Effectiveness in Regulating Discrimination Risks	84
4.3.1. Prohibited AI Practices	86
4.3.2. High-Risk AI Systems	93

4.3.3. Tools for Preventing Discrimination in High-Risk AI Systems under the AI Act.....	99
4.3.4. Certain AI Systems and Their Transparency Requirements ...	106
4.3.5. Minimal-Risk AI Systems.....	108
4.4. General-Purpose AI Models	110

Chapter 5

CONCLUSION.....	113
BIBLIOGRAPHY.....	121
